

Dear Parents,

Attached is the 2022-2023 food allergy packet to complete and return for the upcoming school year. It is important that I have these on file by the first day of school, along with the medication(s) needed in case of an allergic reaction. Please remember that all Epi-pens and antihistamine medications must be in their original containers labeled with the child's name, and that the medication will not expire during the school year. All medications (including over-the-counter antihistamines) need a signed physician's order. Medication orders may be faxed to +1-636-532-6502. Should you have any questions, please feel free to call the school office.

Since your child has a food allergy, we are asking you to send in a picture of your child. This picture will be placed in a private location in the cafeteria, for the food staff and teachers to use to help identify students.

Thank you,

Gretchen Kirsch, RN, BSN

Please return picture and signed permission with the Food Allergy Report by the first day of school.

I, _____, give my permission to Ascension School to post a picture of my child _____ (in a private location) for the use of identifying him/her in the lunch room.

Food Allergy Report

Date: _____

Child's Name: _____

Parent's Name: _____

Home Phone: _____ Cell Phone: _____

Physician: _____ Phone: _____

My child is allergic to: _____

Please describe your child's allergic reaction: _____

Please list the medications your child receives for the allergic reaction including the dose and frequency of administration: _____

I will leave the following medications with the school nurse in the event my child has an allergic reaction at school: _____

Does your child know to avoid these foods/substances? _____

Are you aware of any products that contain the substance your child is allergic to?
(i.e. Some clays contain nut oil) _____

Is there any other information school personnel should be aware of?

Parent/Guardian Signature: _____

FARE.
 Food Allergy Research & Education

FOOD ALLERGY & ANAPHYLAXIS EMERGENCY CARE PLAN

Name: _____ D.O.B.: _____

Allergy to: _____

 Weight: _____ lbs. Asthma: ☐ **Yes (higher risk for a severe reaction)** ☐ **No**
NOTE: Do not depend on antihistamines or inhalers (bronchodilators) to treat a severe reaction. USE EPINEPHRINE.
Extremely reactive to the following allergens: _____

THEREFORE:

- ☐ If checked, give epinephrine immediately if the allergen was **LIKELY** eaten, for **ANY** symptoms.
- ☐ If checked, give epinephrine immediately if the allergen was **DEFINITELY** eaten, even if no symptoms are apparent.

FOR **ANY** OF THE FOLLOWING: SEVERE SYMPTOMS

LUNG

Shortness of breath, wheezing, repetitive cough

HEART

Pale or bluish skin, faintness, weak pulse, dizziness

THROAT

Tight or hoarse throat, trouble breathing or swallowing

MOUTH

Significant swelling of the tongue or lips

SKIN

Many hives over body, widespread redness

GUT

Repetitive vomiting, severe diarrhea

OTHER

Feeling something bad is about to happen, anxiety, confusion

OR A COMBINATION
 of symptoms from different body areas.

- 1. INJECT EPINEPHRINE IMMEDIATELY.**
- 2. Call 911.** Tell emergency dispatcher the person is having anaphylaxis and may need epinephrine when emergency responders arrive.
 - Consider giving additional medications following epinephrine:
 - » Antihistamine
 - » Inhaler (bronchodilator) if wheezing
 - Lay the person flat, raise legs and keep warm. If breathing is difficult or they are vomiting, let them sit up or lie on their side.
 - If symptoms do not improve, or symptoms return, more doses of epinephrine can be given about 5 minutes or more after the last dose.
 - Alert emergency contacts.
 - Transport patient to ER, even if symptoms resolve. Patient should remain in ER for at least 4 hours because symptoms may return.

MILD SYMPTOMS

NOSE

Itchy or runny nose, sneezing

MOUTH

Itchy mouth

SKIN

A few hives, mild itch

GUT

Mild nausea or discomfort

FOR MILD SYMPTOMS FROM MORE THAN ONE SYSTEM AREA, GIVE EPINEPHRINE.
FOR MILD SYMPTOMS FROM A SINGLE SYSTEM AREA, FOLLOW THE DIRECTIONS BELOW:

1. Antihistamines may be given, if ordered by a healthcare provider.
2. Stay with the person; alert emergency contacts.
3. Watch closely for changes. If symptoms worsen, give epinephrine.

MEDICATIONS/DOSES

Epinephrine Brand or Generic: _____

 Epinephrine Dose: ☐ 0.1 mg IM ☐ 0.15 mg IM ☐ 0.3 mg IM

Antihistamine Brand or Generic: _____

Antihistamine Dose: _____

Other (e.g., inhaler-bronchodilator if wheezing): _____

FOOD ALLERGY & ANAPHYLAXIS EMERGENCY CARE PLAN

HOW TO USE AUVI-Q® (EPINEPHRINE INJECTION, USP), KALEO

1. Remove Auvi-Q from the outer case.
2. Pull off red safety guard.
3. Place black end of Auvi-Q against the middle of the outer thigh.
4. Press firmly until you hear a click and hiss sound, and hold in place for 2 seconds.
5. Call 911 and get emergency medical help right away.

HOW TO USE EPIPEN® AND EPIPEN JR® (EPINEPHRINE) AUTO-INJECTOR AND EPINEPHRINE INJECTION (AUTHORIZED GENERIC OF EPIPEN®), USP AUTO-INJECTOR, MYLAN AUTO-INJECTOR, MYLAN

1. Remove the EpiPen® or EpiPen Jr® Auto-Injector from the clear carrier tube.
2. Grasp the auto-injector in your fist with the orange tip (needle end) pointing downward.
3. With your other hand, remove the blue safety release by pulling straight up.
4. Swing and push the auto-injector firmly into the middle of the outer thigh until it 'clicks'.
5. Hold firmly in place for 3 seconds (count slowly 1, 2, 3).
6. Remove and massage the injection area for 10 seconds.
7. Call 911 and get emergency medical help right away.

HOW TO USE IMPAX EPINEPHRINE INJECTION (AUTHORIZED GENERIC OF ADRENALICK®), USP AUTO-INJECTOR, IMPAX LABORATORIES

1. Remove epinephrine auto-injector from its protective carrying case.
2. Pull off both blue end caps; you will now see a red tip.
3. Grasp the auto-injector in your fist with the red tip pointing downward.
4. Put the red tip against the middle of the outer thigh at a 90-degree angle, perpendicular to the thigh.
5. Press down hard and hold firmly against the thigh for approximately 10 seconds.
6. Remove and massage the area for 10 seconds.
7. Call 911 and get emergency medical help right away.

HOW TO USE TEVA'S GENERIC EPIPEN® (EPINEPHRINE INJECTION, USP) AUTO-INJECTOR, TEVA PHARMACEUTICAL INDUSTRIES

1. Quickly twist the yellow or green cap off of the auto-injector in the direction of the "twist arrow" to remove it.
2. Grasp the auto-injector in your fist with the orange tip (needle end) pointing downward.
3. With your other hand, pull off the blue safety release.
4. Place the orange tip against the middle of the outer thigh (upper leg) at a right angle (perpendicular) to the thigh.
5. Swing and push the auto-injector firmly into the middle of the outer thigh until it 'clicks'.
6. Hold firmly in place for 3 seconds (count slowly 1, 2, 3).
7. Remove and massage the injection area for 10 seconds.
8. Call 911 and get emergency medical help right away.

ADMINISTRATION AND SAFETY INFORMATION FOR ALL AUTO-INJECTORS:

1. Do not put your thumb, fingers or hand over the tip of the auto-injector or inject into any body part other than mid-outer thigh. In case of accidental injection, go immediately to the nearest emergency room.
2. If administering to a young child, hold their leg firmly in place before and during injection to prevent injuries.
3. Epinephrine can be injected through clothing if needed.
4. Call 911 immediately after injection.

OTHER DIRECTIONS/INFORMATION (may self-carry epinephrine, may self-administer epinephrine, etc.):

Treat the person before calling emergency contacts. The first signs of a reaction can be mild, but symptoms can worsen quickly.
